STUDENT AWARDS

THE SISTER BERYL HERDT AWARD

This award is presented to the individual who demonstrates the highest degree of integrity as a student enrolled in the Doctor of Physical Therapy Program. The level of one's dedication to lifelong learning is a testimony to this person's character.

THE LEADERSHIP AWARD

This award is presented to the student who demonstrates leadership and initiative in all student related activities and interactions with faculty. The individual consistently personifies the mission of the Dominican College Doctor of Physical Therapy Program, as well as the profession.

THE OVERALL ACHIEVEMENT AWARD

This award is presented to the student who exemplifies a combination of strong academic performance, a profound commitment to the profession, and being a positive role model both inside and outside the classroom.

THE CLINICAL EDUCATION AWARD

This award is presented to the individual who has best represented the program's mission of preparing an entry-level physical therapist through clinical experiences. The individual consistently embodies the APTA's core values: accountability, altruism, compassion and caring, excellence, integrity, professional duty, and social responsibility.

THE RESEARCH AWARD

This award is presented to the students who developed an outstanding appetite for research, and has gone above and beyond the typical research agenda.

CLASS OF 2021 RESEARCH PROJECTS

ADAM FURMAN, DANIELLE GUDDEMI, DANIELLE KAISER, ALYSSA NATALE

The immediate effects of blood flow restriction during knee extension on cardiopulmonary vital recovery in healthy individuals ages 18–35 years

JOELLE MANGANELLA, JACLYN BUCKLEY, ANGIE AGRAWAL

Do auditory, visual, self-correct or external focus cues decrease muscle activity in the cervical spine while sitting at a computer in a healthy population?

CHRISTINA RUBIN, JASMIN LUGO, MEGAN JANESKY

The Effects of Meditation on Increasing Range of Motion in Students with Neck Pain

ALLAN TRINIDAD, TOBENNA MODEBELU, ENMANUEL JIMENEZ

Acute effects of blood flow restriction quadriceps activations; observing the differences between long arc quad and sit to stand quadriceps activation in healthy adults: quasi experimental study

MICHAEL DEKENS, ALEKSANDER KOWARZ, NICOLE BARTOSH

The effect of manual external stabilization applied to the cervical spine, scapula or glenohumeral joint on shoulder elevation active range of motion in healthy adults

TONY NG, SAMUEL SOUTO, KOLAWOLE BAMGBELU

The effects of laser biofeedback at the trunk utilizing external focus cue and its role in dynamic knee valgus in healthy young females

DANIELLE MATOS, ALEXIS GABEL, JUSTIN GRUB, MARTEL PERRY

The immediate effects of ankle mobilization on gluteus medius recruitment in a healthy population

RACHEL TERRANOVA, JONATHAN CHEN, ALEKSANDRA A. PAPADIMITRIOU

Assessing the immediate effect of vibration and sensory stimulation on plantar surface of the foot on dynamic balance, dorsi flexion range of motion and plantar flexion strength in healthy adults

DOMINICAN COLLEGE OF BLAUVELT

ORANGETOWN · NEW YORK
