

SOHLIS Environmental Science Residential Summer Camp 2025

July 7- July 11

Growing roots for future
STEM Success

**Applications must
be submitted by
June 13, 2025.**

Apply Today!

Rockland County high school freshman, sophomores and juniors interested in science are invited to apply. Twenty students will be selected for this distinguished program.

Daily sessions will feature workshops filled with enriching experiences focusing on both global and local climate change and its effects on biodiversity through the lens of botany, entomology, ornithology and macroinvertebrates. Environmental science experts will lead students on off-campus field trips.

Camp participants will reside on campus in dormitories and experience life at Dominican University. Students will be grouped in cohorts of five and will be supervised by trained, caring resident assistants.
